hair care guide

- · Shampoo and Deep Condition your wig/bundles every 2 weeks.
- Raw hair requires moisture so please use sulfate-free shampoos and conditioners.
- Detangle from ends to wefts with a wide tooth comb or vent brush to prevent breakage.
- · Seal your wefts to avoid shedding.
- Air dry your wig/bundles for best results.
- Always use a heat protectant and serum when applying heat (use minimal product to avoid residue and buildup)
- Avoid using heat daily, this can cause dryness.
- Try flexi rods, buns, and braids/twists to preserve your styles.
- Sleep with/on a satin or silk bonnet, scarf, or pillowcase at night.
- Do not sleep in wet hair extensions this can cause mildew, tangling, and matting.
- We highly recommend having a professional stylist bleach and color your bundles and wigs for best results.

- Deep Condition weekly!
- Never detangle curly hair while dry. This can cause shedding and breakage.
- Always detangle while wet with a sulfate-free conditioner applied to the hair, starting from the ends working your
 way up to the wefts. (Wide tooth comb. vent or Denman brush)
- A sprau bottle and Denman brush are must-haves for curlu hair! They will keep your curls juicu and defined.
- For the wet/tamed curly look, we highly recommend using a quarter-size amount of Miss Jessie's Pillow soft curls.
- Before bed always make sure your hair is completely dry!
- We highly recommend putting your hair into 2-4 braids or twists followed by a satin or silk bonnet, scarf, or pillowcase to avoids any tangling.
- In the morning take your braids/twist down spray water, define curls with denman brush, and apply a quarter size
 of Miss Jessie's Pillow Soft Curls, aru dru and go!
